Dear Recruitment Director,

I am writing to express my interest in the Coding Programmer position at UC Merced Division of EJIE. Having learned about your initiative to develop an app advancing understanding of inclusive content and practices, I was immediately compelled to apply. My background in software development, particularly with Raspberry Pi using Python, C++, and C, as well as my familiarity with AWS services, aligns seamlessly with the technical requirements of this role.

- During my time as an Undergraduate Researcher at the University of California, Merced, I had the privilege to engage in a project that heavily utilized Amazon Web Services (AWS) IoT Core, AWS Time Stream, AWS DynamoDB, TensorFlow, and machine learning techniques. This experience provided me with a strong understanding of developing applications that are both efficient and user-friendly, qualities I believe are important for the app EJIE envisions.
- Furthermore, my role as an Information Technology Specialist at Halcyon Mfg. gave me practical insights into the real-world application of software solutions, user training, and support. Collaborating with diverse teams and managing various technological challenges has increased my ability to understand user requirements, an essential skill when developing an educational app meant for a wide audience like students, faculty, and staff.
- Additionally, my academic background from the University of California, Merced, where I delved deep into subjects like Advanced Programming, Algorithm Design, and Software Engineering, has fortified my foundational knowledge, ensuring I can contribute immediately to your team.

I am inspired by EJIE's continuous drive for improvement and the promoting of trust and responsibility. I am confident that with my technical expertise coupled with a strong commitment to EJIE's values, I can contribute significantly to the development of the inclusive content app.

If you have questions of any kind, I would love to have a conversation in the near future! My email and phone number are found at the top of this document. I am excited to learn more about the opportunity and look forward to speaking with you!

Sincerely,

*Tai Pham*
